Professional Certificate in
Full-Stack Developer
Python with
Generative AI
(FSWDGAI)

Duration: 180 Hours

Objective:

Full-Stack Development – Python with Generative AI teaches the student core concepts of both front-end and back-end programming, to get familiar with technologies like Python, Django, React.js, SQL/NoSQL databases, API integration, and Generative AI tools for AI-assisted software development.

What You'll Master

Modern Web Development:

Build interactive web applications using React.js, HTML, CSS, JavaScript, and Bootstrap.

Backend & Database Development:

Develop scalable applications using Python, Django, MySQL, and MongoDB.

Generative AI Integration:

Apply Prompt Engineering, AI tools, and API integration to build AI-powered applications.

AI-Powered Full-Stack Development:

Develop, deploy, and manage intelligent web applications using Git, GitHub, and modern AI workflows.

Course Outline

Module I:

UI/UX, HTML, CSS, JavaScript, Bootstrap, AJAX & API Integration, React.js

Module II:

Python, MySQL, MongoDB, Django

Module III:

Git & GitHub, Generative AI, Working with Server & APIs

Capstone Project:

Real-world project integrating all skills learned in the program

CAREER PATH

Full-Stack Web Developer - Python & Django
Front-End Developer - React.js
Python Developer
Back-End Developer
UI Designer

EXIT PROFILE & COMPETENCIES

Web Designing & Development
Python Development
Django Framework
Designing Knowledge
Generative AI & Prompt Engineering
