Professional Certificate in

Full-Stack Developer

MERN

(FSWDMEN)

Duration: 180 Hours

Objective:

Full Stack Web Development-MERN teaches the student core concepts of both the frontend and backend programming, to get familiar with the latest web development technologies like Express.js, React.js, Node.js, learn all about NoSQL databases and learn the complete web development process.

What You'll Master

Modern Frontend Development:

Build responsive and interactive web applications using HTML, CSS, JavaScript, React.js, and Bootstrap.

Backend Development:

Develop scalable server-side applications using Node.js and Express.js.

Database Management:

Design and manage NoSQL databases with MongoDB.

Full-Stack Application Development:

Build end-to-end web applications with REST APIs, Git/GitHub, server deployment, and industry-standard development practices.

Course Outline

Module I

Front-End Development

User Interface (UI) Design Principles:

Learn fundamental design concepts and principles for creating effective user interfaces.

HTML5 & CSS3 Fundamentals:

Build the structure and style of modern websites using the latest web standards.

Responsive Web Design:

Master techniques to create websites that work seamlessly across all devices and screen sizes. JavaScript ES6+, jQuery & Bootstrap: Develop interactive web applications using modern JavaScript and popular frameworks.

JavaScript ES6+, jQuery & Bootstrap:

Develop interactive web applications using modern JavaScript and popular frameworks.

Module II

Back-End Development Using MERN Stack

Introduction to NoSQL Databases & MongoDB:

Learn the fundamentals of NoSQL database systems with a focus on MongoDB.

Server-side Scripting using Node.js:

Master server-side JavaScript programming with Node.js.

Introduction to Front-end Frameworks & React.js:

Master techniques to create websites that work seamlessly across all devices and screen sizes. JavaScript ES6+, jQuery & Bootstrap: Develop interactive web applications using modern JavaScript and popular frameworks.

Introduction to Cloud Computing, Git & GitHub:

Understand version control and cloud deployment strategies.

CAREER PATH

Full-Stack Web Developer - MERN
Front-end Developer
Back-End Developer
UI Designer
NoSQL Database Programmer

EXIT PROFILE & COMPETENCIES

Complete Knowledge in Web Designing & Development
Front-End Development
Back-End Development:
Database Programming
