

Professional Certificate in AI AGENTS, AUTOMATION & DEPLOYMENT

Duration: 120 Hours

This Level 3 program is designed for advanced undergraduates preparing for AI internships and careers in Agentic AI systems. The focus is on AI Agents, Multi-Agent Architectures, Browser Agents, and MCP (Multi-Modal + Code + Tool-Calling) frameworks, skills that represent the frontier of applied AI today.

Students gain a strong theoretical foundation along with hands-on experience to design, build, and deploy autonomous AI agents capable of reasoning, planning, leveraging tools, and interacting effectively with digital environments. By the end of the course, learners are prepared to tackle complex AI challenges and contribute to real-world AI applications.

- Introduction to AI Agents
- Building AI Agents with LangGraph & CrewAI
- Browser Agents
- MCP, Tool Calling & Function Calling
- Capstone Project
- Assessments & Demo
